Objective academic qualifications will be the major factors considered in admission decisions: (1) courses completed in high school; and (2) combination of high school rank in class and admission test score. Applicants who believe their academic credentials do not adequately reflect their potential for admission, or who believe their admission would add diversity to the educational and social environment, are encouraged to complete the Supplemental Background Statement on the application. Some curricula have additional requirements for admission consideration, such as a professional interest statement, an audition, or an interview. If the number of qualified applicants exceeds the admission quota, preference may be given to residents of Illinois. The 1988 Undergraduate Admission Information Bulletin contains application guidelines to help students assess their opportunity for admission.	Any student who has completed a minimum of 12 semester hours of transfer college classroom credit by the desired term of entry and has graduated from high school is a transfer student. Admission is based on the student's class level, content of the transferable college credit, and the cumulative grade-point average. Special tests may be required—audition, professional-interest statement, interview, examination, portfolio. If transferring with less than 30 graded hours, high school transcripts and rank and ACT or SAT test scores are required. A minimum of 3.25 (A = 5.0) is required for consideration. Priority will be given to transfer applicants with 60 or more semester hours. Selection is made on the basis of those best qualified.
